

## Department of Health Science Admission Policy

We seek people who understand the educational goals and academic requirements of Showa Women's University, and who have a strong interest in food, nutrition and health. We seek people who wish to use their knowledge of medicine; welfare; health research, education and administration; and food to contribute to society. Furthermore, we accept people with the capacity and ability to succeed in the course of study of the department. We therefore recruit applicants through various and comprehensive entrance methods.

### (1) Recommended field of study and subjects to learn before entrance

- Foreign Language: The student should acquire competence in the 4 skills of English by graduation as well as an understanding of the culture, be able to communicate actively, understand input precisely, and be able to communicate her opinions with clarity.
